MEMORANDUM FOR THE RECORD

SUBJECT: SSCI Staffer Ed Levine and the CIA Budget

1. Levine, Senate Select Committee on Intelligence (SSCI) referent for the CIA budget, asked whether an item had been made available to the SSCI. He referred to page 50 of the CBJB [redacted] on which the Foreign Intelligence Capabilities Group (FICG) is said to have "recommended measures to reduce the possibility and impact of future compromises.

2. Levine asked, "Has this information been made available to the SSCI?" He considers this an "important topic."

3. Levine added that it would still be "a couple of days" before he produced his list of briefing requests having been slowed up by the damage to his foot. (This list has been pending for at least a couple of weeks now and time is getting exceedingly short for ease of compliance with his request.) I sincerely doubt he will produce the list prior to 20 February at the earliest.

4. Levine also asked regarding the status of the DDI's IA response to Senator Durenberger's request for some analytical work on Central America which as recently as November 1983 had been promised for "not later than the end of January 1984" by the DD/ALA. I assured him we would check and report back on progress.
